PROFESSIONAL SUMMARY

Full Stack Developer and **AI/ML Engineer** with experience building **scalable web applications** using React, Next.js, Flask, and Supabase; Developed **AI-powered platforms** in healthcare, logistics, and adversarial machine learning. **Strong foundation** in data structures, system design, and model deployment. **Proven hackathon performer** with national-level recognitions, delivering **innovative solutions under tight deadlines** through effective collaboration and technical research.

TECHNICAL SKILLS

Languages	Python, JavaScript, C++, SQL
Frontend	React.js, Next.js, Tailwind CSS, HTML5, CSS3
AI/ML	Scikit-learn, TensorFlow, PyTorch, Matplotlib, Langraph
Databases	Firebase, Supabase
Tools	Git, GitHub, VS Code, Blender

PROJECTS

AI-Driven Water Resilience Platform (DropConnect) — Winner, [Xylem Global Student Innovation Challenge 2025](#). Built end-to-end **full-stack infrastructure** using Next.js and Supabase—developed responsive frontend, integrated backend APIs, and implemented database architecture. ([GitHub](#))

AI Platform for Exoplanet Discovery (Exoplanetarium) — 2nd Runner-Up, [NASA Space Apps Challenge Noida 2025](#). Designed a complete full-stack application with React/Three.js frontend and Python backend—handled database design, API integration, and infrastructure deployment. ([GitHub](#))

Adversarial Robustness Testing Lab (AdversaNet) — Built full-stack application using Next.js and Python for adversarial ML experimentation. Implemented **FGSM/PGD** attack algorithms on TensorFlow/PyTorch models, integrated frontend with backend services, and designed database schema for model testing results. ([GitHub](#))

Real-Time Voice AI for Emotional Awareness (EchoWithin) — Built full-stack voice app with Next.js, Vapi AI, Supabase/Prisma, and Flask API. Implemented **real-time voice**, authentication, **emotion analysis engine**, interactive dashboards, and user-specific conversation logging. ([GitHub](#))

EDUCATION

B.Tech Computer Science & Engineering, Amity University, Noida

2023 – 2027

CGPA: 8.98 (till 6th semester)

Relevant Coursework: Data Structures and Algorithms • Operating Systems • Database Management Systems

CERTIFICATIONS

Python for Data Science — NPTEL (IIT Madras) | Silver

Python for Data Science, AI & Development — IBM (Coursera)

Developing AI Applications with Python and Flask — IBM (Coursera)
